Re: Ricardo Montero

Wes,

I want to let you know that once again, just like at Best Buy Frisco, Ricardo Montero has done a great job of running JBI's projects. On the Best Buy Galleria when I had problems he addressed them promptly, even when they did not make sense, and you know that happens frequently on projects like these. Ricardo manages his crew with the utmost knowledge of placement for each crewman as to where their skills are needed. When I needed more manpower, you and Ricardo responded professionally and quickly to meet the needs/schedule of the project. I wanted to let you know not only myself as the superintendent for MYCON but MYCON as a whole greatly appreciates JBI's commitment to the excellent service given. We are rounding the final corner on Best Buy Galleria. We have the lion's share behind us and I know that he will do what is necessary to finish strong and on schedule. Please continue to give him the support that he needs for the project to finish on time and without difficulty. Congratulations on building a superior working team.

I look forward to working with the two of you again in the future.

Sincerely,

John Leverette

MYCON Superintendent

Best Buy Frisco & Galleria
