

Wes-

I wanted to let you know how well Ricardo and his crew did at the remodel at Best Buy at the Copperfield location in Houston, Texas.

I have been in charge of remodels and New Store Openings since 2005 and have seen many many different electrical crews all over the US and in Turkey as well. Ricardo and his crew are BY FAR the best team I have ever worked with. With their leadership by Ricardo and follow thru from his crew, we were able to hit all of our timelines without any major hiccups. His team was also stellar in making sure we had power run to locations before we opened for business on a daily basis.

I want to add that JBI is extremely lucky to have a foreman such as Ricardo and a crew such as his. The next major project I get scheduled for, I will request Ricardo and JBI from the construction company that wins the bid.

Once you have worked with Ricardo and his team, it doesn't make much sense to step down in quality and workmanship to any other crew out there.

Thanks again,

Jimmy Campos
